

# Model COVID-19 Prevention Program (CPP)

With some exceptions, all employers and places of employment are required to establish and implement an effective written COVID-19 Prevention Program (CPP) pursuant to an Emergency Temporary Standard in place for COVID-19 (California Code of Regulations (CCR), Title 8, section [3205\(c\)](#)). Cal/OSHA has developed this model program to assist employers with creating their own unique CPP tailored to their workplace.

Employers are not required to use this program. Employers may create their own program or use another CCP template. Employers can also create a written CCP by incorporating elements of this program into their existing Injury and Illness Prevention Program (IIPP), if desired. Cal/OSHA encourages employers to engage with employees in the design, implementation and evolution of their COVID-19 Prevention Program.

Using this model alone does not ensure compliance with the emergency temporary standard. To use this model program effectively, the person(s) responsible for implementing the CPP should carefully review:

- All of the elements that may be required in the following CCR, Title 8 sections:
  - [3205, COVID-19 Prevention](#)
  - [3205.1, Multiple COVID-19 Infection and COVID-19 Outbreaks](#)
  - [3205.2, Major COVID-19 Outbreaks](#)
  - [3205.3, Prevention in Employer-Provided Housing](#)
  - [3205.4, COVID-19 Prevention in Employer-Provided Transportation to and from Work](#)
  - The four [Additional Considerations](#) provided at the end of this program to see if they are applicable to your workplace.
- The additional guidance materials available at [www.dir.ca.gov/dosh/coronavirus/](http://www.dir.ca.gov/dosh/coronavirus/)

November 2020

# COVID-19 Prevention Program (CPP) for Endeavor College Preparatory

This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

**Date:** 1/29/2021

## Authority and Responsibility

Director of Operations has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

## Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the **Appendix A: Identification of COVID-19 Hazards** form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.

## Employee participation

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by: attending trainings provided by the Director of Operations or health professionals on how to identify COVID-19 symptoms and protect themselves at the workplace from exposure.

## Employee screening

We screen our employees by: before employees enter the workspace. These screenings include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and/or if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. A temperature check will also be conducted with infrared thermometers.

## Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: COVID-19 Inspections** form, and corrected in a timely manner based on the severity of the hazards, as follows: The severity of the hazard will be assessed and correction time frames assigned, accordingly. The Director of Operations and Plant Manager are identified as being responsible for timely correction. These staff members will notify the school community of what follow-up measures were taken to ensure timely correction.

## Control of COVID-19 Hazards

### Physical Distancing

Where possible, we ensure at least six feet of physical distancing at all times in our workplace by:

- Eliminating the need for workers to be in the workplace – e.g., telework or other remote work arrangements, when the position permits.
- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.
- Employee screenings are conducted before employees enter the workspace. These screenings include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and/or if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. A temperature check will also be conducted.
- All individual employee workstations or areas used by employees working as part of a team allow for separation of at least 6 feet. Classroom furniture is arranged to permit a distance of at least 6 feet between the teacher's desk and the nearest student(s).
- All employees, on-site contractors, vendors and delivery personnel have been provided instructions regarding maintaining physical distancing and the required use face coverings when around others.
- To ensure that masks are worn consistently and correctly, staff are discouraged from eating or drinking except during their breaks when they are able to safely remove their masks and physically distance from others. At all times when eating or drinking, staff must maintain at least a six-foot distance from others. When eating or drinking, it is preferred to do so outdoors and away from others, including visitors. Eating or drinking at a cubicle or workstation is preferred to eating in a breakroom if eating in a cubicle or workstation provides greater distance from and barriers between staff.
- Measures are in place to ensure physical distancing as students, parents or visitors arrive at entry to school.
- Measures are in place to ensure physical distancing within classrooms.
- Measures are in place to permit physical distancing in school areas used for student support services.
- Measures are in place to permit physical distancing in administrative areas of the school.
- Measures are in place to ensure physical distancing as students, parents or visitors enter and move through the school building.
  - Elevator capacity is limited to the number of people that can be accommodated while maintaining a 6 foot distance between riders
- Occupancy is reduced and space between employees is maximized in any room or area used by staff for meals and/or breaks. This has been achieved by:
  - Posting a maximum occupancy that is consistent with enabling a distance of at least six feet between individuals in rooms or areas used for breaks;
  - Staggering break or mealtimes to reduce occupancy in rooms or areas used for meals and breaks; and
  - Placing tables six feet apart and assuring six feet between seats, removing or taping seats to reduce occupancy, placing markings on floors to assure distancing, and arranging seating in a way that minimizes face-to-face contact. Use of partitions is encouraged to further prevent spread but should not be considered a substitute for reducing occupancy and maintaining physical distancing.

### Face Coverings

We provide clean, undamaged face coverings and ensure they are properly worn by employees over the nose and mouth when indoors, and when outdoors and less than six feet away from another person, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department.

- Anyone entering school property who has contact with others (students, parents or other employees) is required to wear a cloth face covering.

- Employees who will have contact with others are offered an appropriate face covering, at no cost. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others.
  - Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate cloth face coverings.
  - All staff must wear face coverings except when working alone in private offices with doors closed or when eating or drinking.
- Employees are instructed to wash or replace their face coverings daily. Parents are instructed to ensure that children have clean face coverings.

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a room.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19.

### **Engineering controls**

- We implement the following measures for situations where we cannot maintain at least six feet between individuals: Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by: using a Merv-13 filter to better ensure that the quality of air recycled through the building is at its highest, in addition to ensuring the proper maintenance of our HVAC systems.

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- High touch areas in staff breakrooms are disinfected after each use, and commonly shared items, such as coffee pots, pots, and dishes, are replaced with single use items or thoroughly cleaned after each use by a different person. Restrooms, classrooms, and other common areas used or visited by staff are disinfected after each use.
- Measures are in place to ensure appropriate cleaning and disinfecting of space, surfaces and objects throughout the school.
  - Common areas and frequently touched objects in those areas (tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, elevator switches and buttons, touch screens, printers/copiers, grab bars, and handrails) are disinfected at least daily and more frequently as resources allow using appropriate products.
  - Use of shared objects is eliminated wherever possible.
  - Cleaning products that are effective against COVID-19 (these are listed on the Environmental Protection Agency (EPA)-approved list “N”) are used according to product instructions.
  - Custodial staff and other staff responsible for cleaning and disinfecting are equipped with appropriate personal protective equipment, including gloves, eye protection, respiratory protection and other appropriate protective equipment as required by the product.
  - Restrooms, lobbies, break rooms, and lounges and other common areas are being disinfected after each use.

Should we have a COVID-19 case in our workplace, we will implement the following procedures: the workspace will be quarantined for 24 hours and then our custodial team will disinfect the space wearing the appropriate protective gear.

## **Shared tools, equipment and personal protective equipment (PPE)**

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses by each employee is assigned their own tools, supplies, equipment and defined workspace to the extent feasible. Sharing of workspaces and held items is minimized or eliminated. In the event that an item must be shared, each item is disinfected before and after use.

## **Hand sanitizing**

In order to implement effective hand sanitizing procedures, we:

- Disinfectant and related supplies are available to employees in the Nurse's Office. Hand sanitizer effective against COVID-19 is available to all employees in or near the following locations: building main entrance, building MPR entrance, kitchen, main office, and classrooms used for assessments. We have also placed hand sanitizer stations at the entrance of each classroom.
- Soap and water are available to all employees at the following locations: all staff restrooms, staff break room, and Nurse's Office.
- Employees are offered frequent opportunities to wash their hands and signage in appropriate place to ensure that proper hand washing is occurring.
- Measures are in place to ensure frequent hand washing by staff, students, and visitors.

## **Personal protective equipment (PPE) used to control employees' exposure to COVID-19**

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained.

## **Investigating and Responding to COVID-19 Cases**

This will be accomplished by using the **Appendix C: Investigating COVID-19 Cases** form.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered COVID-19 testing at no cost during their working hours.
- The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to them.

## **System for Communicating**

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Who employees should report COVID-19 symptoms and possible hazards to, and how All COVID-19 symptoms and hazards should be reported to the Director of Operations immediately via e-mail or phone.
- That employees can report symptoms and hazards without fear of reprisal.
- Our procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.
- Where testing is not required, how employees can access COVID-19 testing: Our school will be providing weekly COVID-19 testing at no-charge to employees regardless if a test is required or not due to exposure. Additionally, we will provide the locations of available testing locations, as needed.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test. A plan for incorporating surveillance testing into

regular school operations of all school personnel. This plan will involve the school working with the healthcare provider of the employee to ensure they have access to a test, or supporting the employee in securing a COVID-19 test provided at no-cost by the City of Los Angeles. Additionally, employees will be allowed time off to access these tests. The result of these tests will be provided to DPH. This requirement for access to testing will also be extended to vendors who are providing services on-campus. We are also providing weekly, no-cost tests to staff.

- Information about COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to, what is being done to control those hazards, and our COVID-19 policies and procedures.
- Students and employees that are identified to have had an exposure to the case at school are notified by the Director of Operations of the exposure through a phone call and e-mail within 1 business day of notification of a case.
  - Notification of exposure will include the following information:
    - students and employees with exposure to the case should get tested for COVID-19 regardless of symptoms and inform the school of results, exposed student and staff should quarantine for 14 days since last exposure to the case, and the DPH will contact them for more information.
    - employees who may have been exposed will be provided information regarding COVID-19 related benefits available under federal, state, and local laws. This information would include workers compensation benefits, COVID-19-related leaves, company sick leave, state-mandated leave, supplemental sick leave, and antiretaliation and antidiscrimination protections.

## Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
  - COVID-19 is an infectious disease that can be spread through the air.
  - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
  - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- We will train both students, staff, and parents.

**Appendix D: COVID-19 Training Roster** will be used to document this training.

## Exclusion of COVID-19 Cases

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work

- requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related. This will be accomplished by employer-provided employee sick leave benefits, payments from public sources or other means of maintaining earnings, rights and benefits, where permitted by law and when not covered by workers' compensation.
- Providing employees at the time of exclusion with information on available benefits.

## Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

## Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
    - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
    - COVID-19 symptoms have improved.
    - At least 10 days have passed since COVID-19 symptoms first appeared.
  - COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
  - A negative COVID-19 test will not be required for an employee to return to work.
  - If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
-

## Appendix B: COVID-19 Inspections

Date: **[enter date]**

Name of person conducting the inspection: **[enter names]**

Work location evaluated: **[enter information]**

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
<b>Engineering</b>			
Ventilation (amount of fresh air and filtration maximized)			
Additional room air filtration			
<b>Administrative</b>			
Physical distancing			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Hand washing facilities (adequate numbers and supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
<b>PPE (not shared, available and being worn)</b>			
Face coverings (cleaned sufficiently often)			
Gloves			
Face shields/goggles			
Barriers			
<b>Classroom</b>			
Physical distancing			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
<b>PPE (not shared, available and being worn)</b>			
Face coverings (cleaned sufficiently often)			
Gloves			
Barriers			

## Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

**Date:** [enter date]

**Name of person conducting the investigation:** [enter name(s)]

<b>Employee (or non-employee*) name:</b>		<b>Occupation (if non-employee, why they were in the workplace):</b>	
<b>Location where employee worked (or non-employee was present in the workplace):</b>		<b>Date investigation was initiated:</b>	
<b>Was COVID-19 test offered?</b>		<b>Name(s) of staff involved in the investigation:</b>	
<b>Date and time the COVID-19 case was last present in the workplace:</b>		<b>Date of the positive or negative test and/or diagnosis:</b>	
<b>Date the case first had one or more COVID-19 symptoms:</b>		<b>Information received regarding COVID-19 test results and onset of symptoms (attach documentation):</b>	

**Results of the evaluation of the COVID-19 case and all locations at the workplace that may have been visited by the COVID-19 case during the high-risk exposure period, and who may have been exposed (attach additional information):**

<b>Notice given (within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case) of the potential COVID-19 exposure to:</b>			
<b>All employees who may have had COVID-19 exposure and their authorized representatives.</b>	<b>Date:</b>		
	<b>Names of employees that were notified:</b>		
<b>Independent contractors and other employers present at the workplace during the high-risk exposure period.</b>	<b>Date:</b>		
	<b>Names of individuals that were notified:</b>		
<b>What were the workplace conditions that could have contributed to the risk of COVID-19 exposure?</b>		<b>What could be done to reduce exposure to COVID-19?</b>	
<b>Was local health department notified?</b>		<b>Date:</b>	

\*Should an employer be made aware of a non-employee infection source COVID-19 status.

## **Additional Consideration #1**

### **Multiple COVID-19 Infections and COVID-19 Outbreaks**

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

#### **COVID-19 testing**

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.
- COVID-19 testing consists of the following:
  - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
  - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
  - We will provide additional testing when deemed necessary by Cal/OSHA.

#### **Exclusion of COVID-19 cases**

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria** requirements, and local health officer orders if applicable.

#### **Investigation of workplace COVID-19 illness**

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

#### **COVID-19 investigation, review and hazard correction**

In addition to our CPP **Identification and Evaluation of COVID-19 Hazards** and **Correction of COVID-19 Hazards**, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
  - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
  - Our COVID-19 testing policies.
  - Insufficient outdoor air.
  - Insufficient air filtration.
  - Lack of physical distancing.
- Updating the review:
  - Every thirty days that the outbreak continues.
  - In response to new information or to new or previously unrecognized COVID-19 hazards.
  - When otherwise necessary.
- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
  - Moving indoor tasks outdoors or having them performed remotely.
  - Increasing outdoor air supply when work is done indoors.

- Improving air filtration.
- Increasing physical distancing as much as possible.
- Respiratory protection.
- [describe other applicable controls].

#### **Notifications to the local health department**

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

## **Additional Consideration #2**

### **Major COVID-19 Outbreaks**

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

#### **COVID-19 testing**

We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees' working hours.

#### **Exclusion of COVID-19 cases**

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any relevant local health department orders.

#### **Investigation of workplace COVID-19 illnesses**

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

#### **COVID-19 hazard correction**

In addition to the requirements of our CPP **Correction of COVID-19 Hazards**, we will take the following actions:

- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

#### **Notifications to the local health department**

We will comply with the requirements of our **Multiple COVID-19 Infections** and **COVID-19 Outbreaks-Notifications to the Local Health Department**.
